MESSAGE FROM MANAGEMENT

Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A. (MIBL) is a bank with a universal banking license located in Luxembourg, and a member of "MUFG Investor Services" which is a global brand of Mitsubishi UFJ Financial Group (MUFG).

The Bank focuses on Global Custody services and Fund Administration services as well as various banking services such as depository services. Since 2015 the bank has enhanced its range of services to global investors in line with the MUFG Investor Services group strategy.

To leverage MUFG Investor Services global network, the Bank will continue to enhance its services in order to meet client expectations.

Yoshinobu Hirota
Chief Executive officer

May 31, 2023

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A. (MIBL), as a financial institution established under the laws of the Grand Duchy of Luxembourg, is regularly involved in host country initiatives that embrace the realization of a sustainable society. Our efforts also extend to the campaign for the use of public transportation, to the promotion of saving energy, and the advancement of recycling in order to reinforce our responsibility towards the environment.

PERFORMANCE HIGHLIGHT

As for the Custody business, assets migrations were completed as planned under Project Sentosa in November 2022 and the bank has continued to engage in stabilization and enhancement of our service quality and competitiveness under the new Citibank platform. Although the assets under custody decreased to USD 536 billion as of December 31, 2022 due to the market price decrease, the revenue for Custody business increased from the previous year.

As for the Fund Administration business, the Net Asset Value calculations were USD 12.3 billion as of December 31, 2022. 2 new funds (including sub-funds) were launched during the year 2022, while 12 funds have been liquidated.

As for other business, such as Dublin branch, Bank Account Services, Fund Order Desk and Fiduciary Services, their revenue was USD 4.3 million.

Custody Assets of MIBL

- UCI (Undertakings for Collective Investment)
- Others

FINANCIAL HIGHLIGHT

1. Total Operating income

For the year ended December 31, 2022, the operating income reached USD 151.238 thousand, which is USD 54.336 thousand higher than the previous fiscal year, mainly due to the increase of net interest income and the increase of the net commission.

1.1 Net Interest Income

As a result of the sharp increase of interest rates in 2022, the net interest income reached USD 48.746 thousand, which is 33.652 thousand higher than the previous fiscal year.

1.2 Net Commission

The net commission also increased by USD 18.472 thousand to USD 90.685 thousand as of December 2022.

2. General Administrative Expenses

General administrative expenses were successfully controlled, which have decreased by USD 8.990 to USD 63.759 thousand in 2022 compared to the previous year.

3. Net Operating Profit

As a whole, Net operating profit before income taxes in 2022 increased by USD 63.256 thousand to USD 84.044 thousand, as compared to USD 20.787 thousand as of December 2021.

CORPORATE GOVERNANCE STRUCTURES

FREQUENCY OF THE MEETING

Board of Directors:	Quarterly
Executive Committee:	Monthly
Credit and ALM Committee:	Monthly
New business & Product Approval Committee:	Ad-hoc basis
Pricing & Valuation Committee:	Monthly
Risk Management Committee:	Monthly
Compliance Oversight Meeting:	Monthly
Depository Services Committee:	Monthly
Preparatory Nomination Meeting:	Ad-hoc basis
Regulatory Management Committee:	Monthly

CORPORATE GOVERNANCE STRUCTURES

The General Meeting of Shareholders is the highest decision-making body in the Bank. By adopting the articles of incorporation, the shareholders have agreed to transfer the most extensive administrative powers, including the power to delegate, to the Board of Directors, keeping for themselves only the powers reserved by law to the shareholders meeting.

The Board of Directors has in turn delegated the day-to-day management of the company to the General Management (“Authorized Management”), presently composed of one Chief Executive Officer and 2 Deputy Chief Executive Officers. General Management has organized the Bank into such business lines as is necessary to meet legal requirements and to accomplish the Bank's day-to-day objectives.

In order to further strengthen corporate governance and to improve active risk management, as is necessary for a sound organization, the Board of Directors decided in 2010 to reorganize the Bank's committee structure by more clearly defining committees' subjects to be treated, duties, and reporting lines, and by creating a management committee in charge of all strategic and non-recurrent affairs of the Bank, named the “Executive Committee.”

The business of the Bank is subject to a three-level control system. The first line of defense occurs within the business lines themselves, which have primary responsibility for any action undertaken, and as a consequence, have been organized in such a manner that each action is carefully checked before being released.

The second line is formed by the support functions, including the Compliance and the Risk Control Functions.

The Risk Management Function comprises the Risk Management Department, the Risk Management Committee, which is overseeing

Credit Risk Management, Market Risk Management, Outsourcing Risk Management, Climate Risk Management, Operational Risk Management, Business Continuity Management and Information Security Management, the Credit and ALM Committee, which is overseeing Credit Management, Asset & Liability Management and Liquidity Risk Management and the New Business & Product Approval Committee, which is overseeing the approval of new business and new products. The regular Risk Management Report is delivered for approval to the Board of Directors each quarter.

Compliance related topics are discussed within two different committees; the Regulatory Management Committee which primary responsibility is to review assess potential impacts and follow up on regulatory changes that are impacting MIBL and the Compliance Oversight Meeting where all compliance activities and issues for the bank and the Dublin branch are covered. The Chief Compliance Officer has a direct access to MIBL board of directors and report on a quarterly basis on compliance matters.

General Management and the Executive Committee are part of, and supervise, the first two levels of controls. They also supervise insofar as necessary and required the third level control.

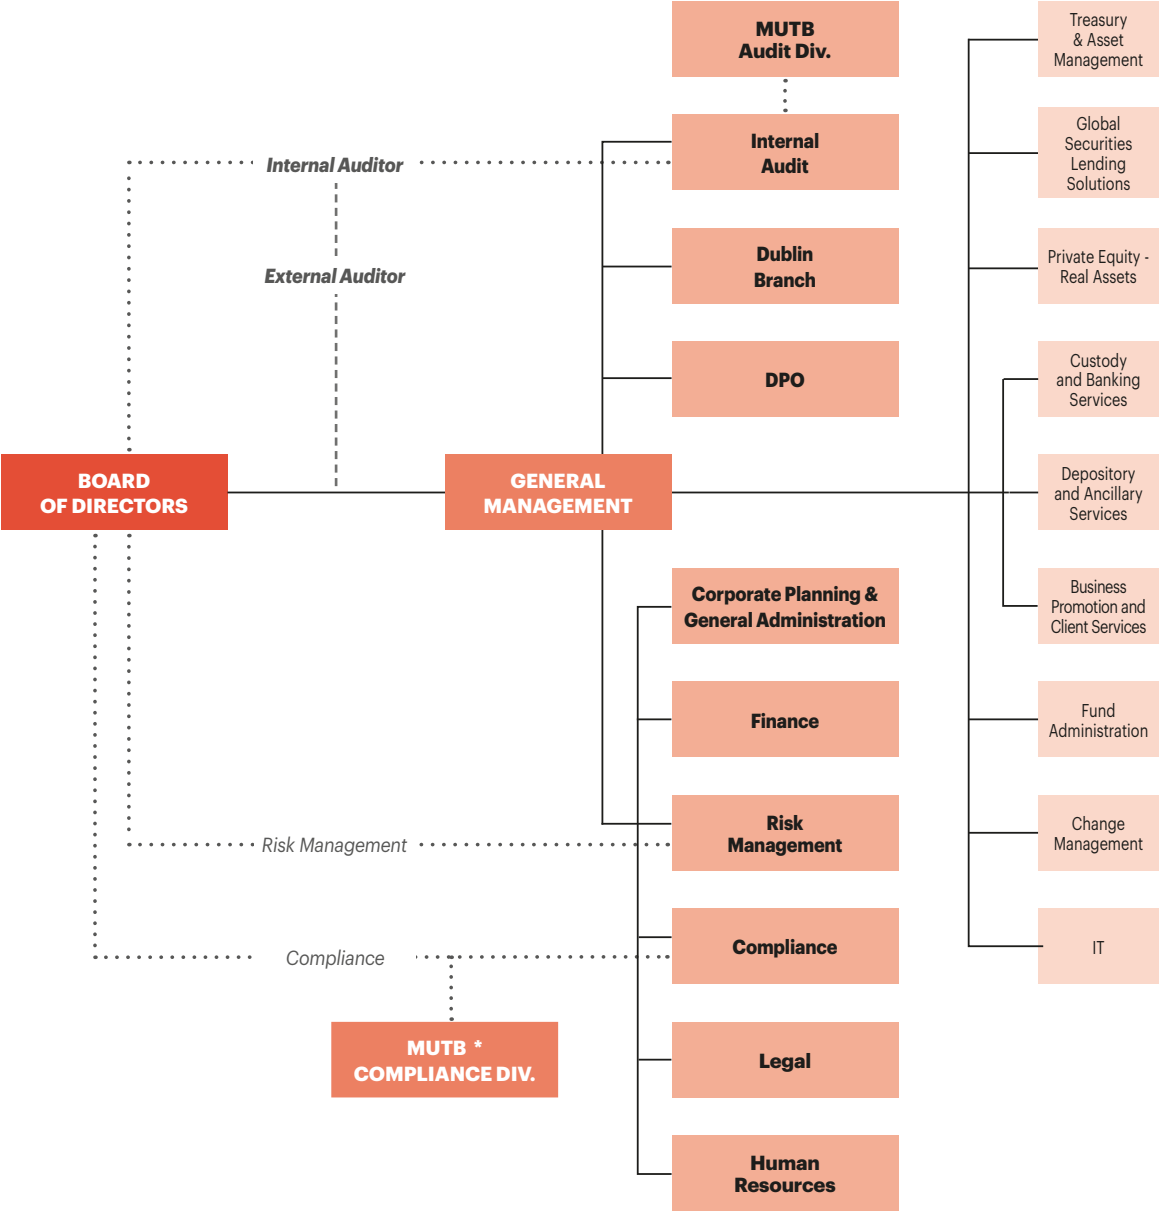

The third-level consists of the Internal Audit Function, which in turns provides an independent, objective, and critical review of the first two lines of defense.

The third level of control, in cooperation with General Management and the Executive Committee, has to ensure the soundness and appropriateness of the Bank's activity. It has the authority to report directly, in case of need or if so required, to the Board of Directors and to regulatory authorities and external auditors, in addition to the Head Office.

MANAGEMENT REPORT

December 31, 2022

Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A. (the “Bank”) Financial Results 2022

For the year ended December 31, 2022, the Bank reported an operating income of USD 151.238 thousand, as compared to USD 96.902 thousand for the previous fiscal year. The increase of USD 54.336 thousand or 56.07%, comes from the net interest income (223%). The net commission income increased by 25.58%.

The general administrative expenses have decreased by USD 8.990 thousand.

Net operating profit before income taxes in 2022 increased by USD 63.256 thousand to USD 84.044 thousand, as compared to USD 20.787 thousand as at December 2021.

As of December 31, 2022, the total balance sheet amounted to USD 8.211,1 million versus USD 10.869,1 million as at December 2021. The Liquidity Coverage Ratio (LCR) introduced by the regulation (EU) No 575/2013 of the European Parliament, was 371.60% in December 2022. The Solvency Ratio amounted to 29.15%. Both ratios are well above the statutory minimum requirements. The Return on Assets (ROA) ratio was 0,75% as at December 31, 2022.

The Board of Directors will propose, at the Ordinary Meeting of Shareholders, that the amount of USD 72.020.866,85 consisting of the result brought forward of USD 325.517,86, the available reserve for Net Worth Tax from the year 2017 of USD 8.700.000,00 and the net profit of the financial year ended December 31, 2022 of USD 62.995.349,00 will be allocated as follows:

Allocation to other reserve

(Net Worth Tax 2022)	USD	13.380.000,00
----------------------	-----	---------------

Allocation to free reserve	USD	53.800.000,00
-----------------------------------	-----	---------------

Allocation to legal reserve	USD	3.078.709,00
------------------------------------	-----	--------------

Dividends

Class A Shares dividend	USD	0,00
-------------------------	-----	------

Class B Shares dividend	USD	0,00
-------------------------	-----	------

Result brought forward	USD	1.762.157,85
-------------------------------	-----	--------------

Total	USD	72.020.866,85
--------------	------------	----------------------

As of December 31, 2022, the Bank had not acquired any of its own shares.

Business Circumstances in 2022

The financial markets in 2022 were influenced by geopolitical tensions between Russia and Ukraine, as well as COVID-19.

In February 2022, Russia launched a military invasion of Ukraine, which triggered inflation with a sharp rise in the price of oil and other resources around the world.

Despite the ongoing impact of COVID-19, the global economy rebounded due to positive sentiment surrounding a successful rollout of COVID vaccinations and restrictions being lifted, resulting in an increased consumer spending and business activity compared to 2021.

Considering the accelerating inflation due to economic recovery and Russian invasion, the Federal Reserve Bank (Fed) started to raise the interest rates sharply at FOMC (Federal Open Market Committee) meeting since March 2022. The European Central Bank (ECB) and other central banks also raised interest rates. On the other hand, Japan maintained its easing monetary policy, resulting in a significant depreciation of the yen in the foreign exchange market. As for the stock

market, the stock prices declined mainly due to the concerns about a recession, which is caused by the interest rate hikes and Russia's invasion.

Business Achievement in 2022

The Bank's revenue increased compared to 2021 mainly due to the high performance of Net Interest Income. As a result of the rapidly increased interest rates, NII revenue reached USD 48.75 mio, which is USD 33.65 mio more than that as of 2021.

In the Custody business, all assets migrations (except for Russian securities) were completed as planned and the Program Sentosa was officially closed as of 15 November, 2022. Custody Revenue was higher than 2021, however, it was below the plan, as the AuC does not increase steadily compared to the planned amount for the 2022 budget. Since the market prices decreased, custody assets amount decreased to USD 536 bio as of December 31, 2022.

As for the Fund administration business, the bank outsourced the operation to our group entity in October 2022 to utilize the group's resources. As for the Global Securities Lending Solutions, in January the team led by New-York and London Branches started their first trades booked at MIBL.

As for General Expenses, they were successfully controlled, which was -USD10.92 mio below the plan. Totally, 2022 result before taxes (USD82mio) is much higher than original plan (+ USD19.8mio).

Risk Management (Risk Control Function)

In 2022, the core business strategy of the Bank remained further Japan-centred, with the vast majority of the Bank's clients still being

located in Japan. However, the bank started and continues to increase its business toward non-Japanese clients. As Fund Administration and Custody, along with ancillary activities in the provision of hedging services for clients, remained the Bank's main business lines, the Bank continues to mitigate the risks associated with these activities.

Given this environment, the Management's major objective is, in addition to monitoring and controlling the Bank's business-related risks (e.g. credit, market, liquidity and operational risk), to foresee, prevent or mitigate these risks before they have an impact.

To accomplish these objectives, the Risk Management Department is continuously strengthening its current controls and strives to implement improved measures.

Some of the comprehensive risk categories that are of utmost relevance to the Bank are the following:

Credit Risk

The Risk Control Function is in charge of monitoring counterparty and credit risk on a daily basis through the monitoring of exposures towards the Bank's counterparties. A thorough risk management process is in place to monitor limit breaches, apply appropriate corrective measures when breaches occur, and escalate these events when necessary, to Management or to the Regulator.

Funding Liquidity Risk

The Treasury Department is responsible for controlling and managing funding operations, whereas Risk Control is in charge

of monitoring on a daily basis compliance with internal standards for appropriate control and management of Funding Liquidity Risk. In particular, Risk Control monitors the daily development of the Liquidity Coverage Ratio (LCR: internal minimum level for the LCR is 120 %, regulatory level is 100%), Net Stable Funding Ratio (NSFR: internal minimum threshold 120, regulatory 100%) and Leverage ratio (internal minimum threshold 3.5%, regulatory 3%). In addition, the Minimum Requirement of Own Funds & Eligible Liabilities (MREL: internal limit of 2%, regulatory of 1.64%) is required to MIBL since 2020.

Market Risk

As of December 31, 2022, the Bank's exposure to market risk was limited; there were no speculative positions, nor proprietary trading. In addition, the Bank assures a careful control over the FX Risk and Interest Rate Risk via the calculation of an assets and liabilities duration gap, from both the mark-to-market perspective, and an earnings point of view.

Operational Risk

Operational Risk is the risk category the Bank dedicates the most effort to. It can be defined as the risk of an inadequate or failed process. It is monitored on a regular basis and it was a major part of the Bank's Risk Management plans in 2022, 2023 and 2024. Important Operational Risks in the Bank are as follows:

<Operations Risk>

The Bank ensures a detailed focus on the effectiveness of its Operations Risk Management, by using the Operational Risk Self-Assessment (ORSA) and the Operational Risk Quality Assessment (ORQA) to increase the quality of the Operational Risk Management and other tools. In addition, the Bank incorporates the impacts of external

changes (e.g. new regulations or added complexity to our business due to client requests) in the Bank's risk policies and procedures.

<Settlement Risk>

It is the risk of non-receipt of funds from counterparties, or an associated risk with settlements. As an example, internal system developments have significantly improved the performance of the Bank's automated intra-day cash reconciliation.

<Information Security>

The main objective of the Information Security Risk Management is to assess the Bank's risk exposure to the mishandling of its (confidential, client and personal) information and therefore ensure that its efforts to mitigate this risk are properly targeting potential vulnerabilities. The Bank has established various controls in lines with the applicable regulation, standards and best practices, trained its staff and is periodically testing the effectiveness of information security measures. Logical security tools and techniques are administered to restrict access to programs, data and other information resources based on the "need to know" principle. User rights per software platform are reviewed on a regular basis by the Head of Department. The Internal Audit function is ensuring that proper governance of Information Security is in place.

<Outsourcing Risk>

Outsourcing Risk is regularly discussed in the planned meetings of the Risk Management Committee in order to closely monitor this type of risk. Further, the Outsourcing Risk Officers perform risk assessments and due diligence visits to outsourced providers with a high residual risk. Additionally, RMD conducts every year a quantitative outsource risk inventory and risk analysis.

<Climate Related & Environmental Risks (CR&E)>

As a part of the ESG regulation, starting from 4th quarter of 2021 the Bank has started develop a framework to identify, measure and prevent CR&E risks. These controls are in principle performed on financial counterparts, clients, vendors and outsourced activities to identify whether they are ESG compliant or have started to address their particular challenges on climate risks. The CR&E framework will be further developed along 2023 vis-à-vis more data is gathered and as a result, specific metrics are established.

Risk Strategy

In compliance with the legal and regulatory mandates and for the purpose of protecting the institution and its reputation, the Bank's Board of Directors approves notably the Bank's risk strategy, including its risk appetite, risk tolerance and the guiding principles governing risk identification, measurement, reporting, treatment, and monitoring.

ICAAP/ILAAP and Business Recovery Plan

In line with regulatory rules and guidelines, the bank conducts Stress Tests in the major risk types (credit, market, operational, liquidity) for the yearly ICAAP/ILAAP Report and setup yearly a fully-fledged Business Recovery Plan according the Business Recovery and Resolution Directive (BRRD). Based on Reverse Stress Tests (extreme stress scenarios for the bank), the Recovery Plan allows the bank to take actions for a business recovery in case of a severe business or economic downturn which hits the bank severely and avoids bankruptcy and resolution of the bank. For this, recovery options are defined that the bank could use in order to restore its capital base, liquidity

position or profitability avoiding a bankruptcy. Given the results of the ICAAP/ILAAP Stress Tests and the setup of the Business Recovery Plan, the bank is quite stable in particular in case of sudden economic downturns.

Business Plan for 2023

The bank continues to prioritise stabilizing the Global Custody operations under the new Citibank platform. The migration to Citibank will enable the bank to not only save operational costs, but eventually enhance service quality and competitiveness by implementation of "Follow-The-Sun" operations (Lux-NY-Tokyo) that will improve client's instruction cut-off times as well as a new up-to-date web portal.

In addition, the bank also pursues business growth from Non-Japanese clients by improving a sales support and onboarding process, as well as enhancing depository operational model. Such initiatives, together with a series of post-program Sentosa stabilisation enhancement, are jointly managed as a project by the bank and MUTB, the head office. The project's aim is to enable the bank to concentrate more resources and skills on its strategic core business while further pursuing the group collaboration for non-core business.

From financial perspectives, the bank expects further increases of revenues from both cash investment and custody services due to relatively positive environment in both short term interest as well as bond and equity markets.

Yoshinobu HIROTA
Chief Executive Officer

March 14, 2023

REPORT OF THE REVISEUR D'ENTREPRISES AGRÉÉ

Report on the audit of the annual accounts

Opinion

We have audited the annual accounts of Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A. (the "Bank"), which comprise the balance sheet as at 31 December 2022, and the profit and loss account for the year then ended, and notes to the annual accounts, including a summary of significant accounting policies.

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of the bank as at 31 December 2022, and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

Basis for Opinion

We conducted our audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the EU Regulation

No 537/2014, the law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of the "réviseur d'entreprises agréé" for the audit of the annual accounts » section of our report. We are also independent of the Bank in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual accounts of the current period. These matters were addressed in the context of the audit of the annual accounts as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition - Commission receivable

Why the matter was considered to be one of most significant in the audit

We refer to Summary of significant accounting policies - Note 2.15 - Revenue Recognition and Note 22 on Commission Receivable of the annual accounts.

Commission receivable amounted to USD 134.826.564 as of 31 December 2022. Commissions receivable mainly derive from investment funds, fiduciary and global custody operations.

The applicable rates per each type of commission depend on the underlying assets under custody and administration, agreements and services provided.

The recognition process of commission receivable includes manual intervention and it is considered to be a key audit matter due to the materiality of the related amounts, combined with the volume of transactions that are recorded.

How the matter was addressed in the audit

Our audit focused on the following procedures:

We held interviews with Finance and Billing department and obtained an understanding of the commission receivable recognition process.

We assessed the design and implementation of the internal controls surrounding commission receivable, and tested operating effectiveness of the relevant related key controls.

We developed expectations for the aggregate amounts per type of commission income and we compared the expectations to the amounts recorded by the Bank.

For a sample of the different types of commissions:

- we tested commission receivable by performing independent recalculation of the commissions for a sample of items. This also included the reconciliation of the fee terms to the underlying contracts and the underlying basis to external evidence;
- we agreed the receipt of accrued commissions to payments subsequent year end;
- we included elements of “unpredictability” in the procedures performed in response to the risk of fraud by randomly selecting additional items and by verifying appropriate segregation of duties, as well as the application of the “4 eyes principle”, within the fee and commission income process.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the management report but does not include the annual accounts and our report of the “réviseur d’entreprises agréé” thereon.

Our opinion on the annual accounts does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the annual accounts, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the annual accounts

The Board of Directors is responsible for the preparation and fair presentation of these annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Directors is responsible for assessing Bank’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern

basis of accounting unless the Board of Directors either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d’entreprises agréé” for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation N° 537/2014, the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the EU Regulation N° 537/2014, the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery,

intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any

significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual accounts of the current period and are therefore the key audit matters. We describe these matters in our audit report unless law or regulation precludes public disclosure about the matter.

Report on Other Legal and Regulatory Requirements

We have been appointed as "réviseur d'entreprises agréé" by the Board of Directors on 21 March 2022 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 3 years.

The management report is consistent with the annual accounts and has been prepared in accordance with applicable legal requirements.

We confirm that the prohibited non-audit services referred to in the EU Regulation N° 537/2014 were not provided and that we remained independent of the Bank in conducting the audit.

Luxembourg, 14 March 2023

NOTES TO THE ACCOUNTS

December 31, 2022

NOTE 1 - GENERAL

1.1. Corporate matters

Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A. (the "Bank") was incorporated in Luxembourg on April 11, 1974 as a *société anonyme*.

On April 1, 1996, the Parent Bank, The Bank of Tokyo, Ltd., merged with The Mitsubishi Bank, Limited to form The Bank of Tokyo-Mitsubishi Ltd., and Bank of Tokyo (Luxembourg) S.A. changed its name to Bank of Tokyo-Mitsubishi (Luxembourg) S.A.

On October 1, 2005, the indirect shareholder, Mitsubishi Tokyo Financial Group, Inc. (MTFG) merged with UFJ Holdings, Inc. (UFJ) and formed a new financial group, Mitsubishi UFJ Financial Group (MUFG).

On January 1, 2006, the Parent Bank, The Bank of Tokyo-Mitsubishi, Ltd. merged with UFJ Bank Limited to form The Bank of Tokyo-Mitsubishi UFJ Ltd., and Bank of Tokyo-Mitsubishi (Luxembourg) S.A. changed its name to Bank of Tokyo-Mitsubishi UFJ (Luxembourg) S.A.

On April 2, 2007, the Bank became a jointly capitalized subsidiary of Mitsubishi UFJ Trust and Banking Corporation by 70% and Bank of Tokyo-Mitsubishi UFJ Ltd. by 30%, which are under the same holding company Mitsubishi UFJ Financial Group (MUFG). Consequently, Bank of Tokyo-Mitsubishi UFJ

(Luxembourg) S.A. changed its name to MITSUBISHI UFJ Global Custody S.A. (MUGC).

On April 28, 2008, MITSUBISHI UFJ Global Custody S.A., has issued 49,080 new shares and the capital of the Bank has been increased by USD 1,817,968,52. The total subscribed share capital is currently set at USD 37,117,968,52. The two major shareholders of the Bank hold 92,25% of the capital, Mitsubishi

UFJ Trust and Banking Corporation by 63,72% and Bank of Tokyo-Mitsubishi UFJ Ltd. by 28,53%.

On August 7, 2014, MITSUBISHI UFJ Global Custody S.A. has established an external branch located at Ormonde House, 12-13 lower Lesson Street, Dublin 2, Ireland. Mitsubishi UFJ Global Custody S.A., Dublin Branch is registered as credit institution pursuant to UE Regulation, 1993, under the number 907648.

On May 1, 2016, MITSUBISHI UFJ Global Custody S.A. has changed its name to MITSUBISHI UFJ INVESTOR SERVICES & BANKING (LUXEMBOURG) S.A. (MIBL).

On May 31, 2017, Mitsubishi UFJ Trust and Banking Corporation obtained 100% of the voting shares of Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A.

The members of the Board of Directors are Senior Executives of Mitsubishi UFJ Trust and Banking Corporation Group and Independent Directors. The business policy and valuation principles, unless prescribed by the legal requirements existing in Luxembourg, are determined and monitored by the Board of Directors in accordance with those applied in Mitsubishi UFJ Financial Group.

1.2. Nature of business

The object of the Bank is the undertaking for its own account, as well as for the account of third parties either within or outside the Grand-Duchy of Luxembourg, of any banking or financial operations, as well as all other operations, whether industrial or commercial or in real estate, which directly or indirectly relate to the main object described above.

More specifically, the Bank concentrates its activities on investment management services.

A significant volume of the Bank's transactions is concluded directly or indirectly with companies of Mitsubishi UFJ Financial Group.

1.3. Annual accounts

The Bank prepares its annual accounts in US Dollars (USD), the currency in which the capital is expressed. The Bank's accounting year coincides with the calendar year.

The Bank's Board of Directors has made an assessment of the Bank's ability to continue as a going concern and is satisfied that the Bank has the resources to continue in business for the foreseeable future. Furthermore, the Board of Directors is not aware of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern. Therefore, the annual accounts continue to be prepared on the going concern basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Bank prepares its annual accounts under the historical cost principle in accordance with the laws and regulations in force in the Grand-Duchy of Luxembourg and on the basis of accounting principles generally accepted in the banking sector in the Grand-Duchy of Luxembourg.

In observing these, the following significant accounting policies are applied.

2.1. The date of recording of transactions in the balance sheet

Assets and liabilities are stated in the balance sheet on the date the amounts concerned become cleared funds, that is, on their date of effective transfer.

2.2. Foreign currencies

The Bank maintains a multi-currency accounting system which records all transactions in the currency or currencies of the transaction, on the day on which the contract is concluded.

Assets and liabilities are converted into USD at the spot exchange rates applicable at the balance sheet date. Both realised and unrealised profits and losses arising on revaluation are accounted for in the profit and loss account for the year, except

for those resulting from items specifically covered by a forward foreign exchange contract (swap and hedging forward foreign exchange contract) which are recorded at historical exchange rates.

Revenues and expenses in foreign currencies are translated into USD daily at the prevailing exchange rates.

At the year-end, all unsettled forward transactions are translated into USD at the forward rate prevailing on the Balance Sheet date for the remaining maturities.

Results on unsettled forward transactions linked to spot transactions and on swap transactions are accrued at the balance sheet date. In case of unrealised results on position covered by foreign exchange swap, these are neutralized at year end.

2.3. Financial instruments derivatives

The Bank's commitments deriving from the derivatives financial instruments such as interest rate swaps, forward rate agreements, financial futures and options are recorded on the transaction date among the off balance sheet items.

At the year-end, where necessary, a provision is set up in respect of individual unrealised losses resulting from the revaluation of the Bank's commitments at market value. There is no provision for unrealized losses on forward deals recorded for the year 2022 (2021: USD nil).

No provision is set up in those cases where a financial instrument clearly covers an asset or a liability and economic unity is established or where a financial instrument is hedged by a reverse transaction so that no open position exists.

2.4. Specific value adjustments in respect of doubtful and irrecoverable debts

It is the Bank's policy to establish specific value adjustments in respect of doubtful and irrecoverable debts, as deemed appropriate by the Board of Directors.

Value adjustments, if any, are deducted from the assets to which they relate.

2.5. Value adjustments for possible losses on bills, loans and advances and leasing transactions

The value adjustments for possible losses on loans and advances, if any, are deducted from the assets to which they relate.

2.6. Lump-sum provision for risk exposures

In accordance with the Luxembourg tax legislation, the Bank can establish a lump-sum provision for risk exposures, as defined in the legislation governing prudential supervision of banks. The purpose of the provision is to take account of risks which are likely to crystallise but which have not yet been identified as at the date of preparation of the annual accounts.

Pursuant to the Instructions issued by the Directeur des Contributions on December 16, 1997, this provision should be made before taxation and should not exceed 1,25% of the Bank's risk exposures.

The Bank has not constituted any provision as of December 31, 2022 (2021: USD 0).

2.7. Transferable securities

Transferable securities are recorded initially at their purchase price. The average cost method is used for initial recognition. Value adjustments, calculated as described in note 2.5. or arising from a diminution of value, are deducted from the account balance.

2.8. Tangible and intangible assets

Tangible and intangible assets are valued at purchase price. The value of tangible and intangible fixed assets with limited useful economic lives is reduced by value adjustments calculated to write off the value of such assets systematically over their useful economic lives as follows:

- Hardware equipment: 4 years;
- Software: 4 years and 5 years;
- Other intangible assets: 5 years;
- Other tangible assets: 10 years;
- Goodwill: 5 years.

2.11. Taxes

Taxes are accounted for on an accruals basis in the accounts of the year to which they relate. Provision for taxation corresponds to the difference between the estimated provisions created by the Bank and the advance payments for the financial years for which no final tax assessment notices have been received yet.

2.12. Prepayment and accrued income

This asset item includes expenditure incurred during the financial year but relating to a subsequent financial year.

2.13. Accruals and deferred income

This liability item includes income received during the financial year but relating to a subsequent financial year.

2.14. Provisions

Provisions are intended to cover losses or debts the nature of which is clearly defined and which, at the date of the balance sheet are either likely to be incurred or certain to be incurred but uncertain as to their amount or as to the date on which they will arise.

2.15. Revenue recognition

The Bank's main streams of revenue are comprised of interests and commissions income. The Bank earns fee and commission income from a wide range of services it provides to its customers.

Revenue is generally recognized when the related services are performed or recognized over the period that the services are provided.

NOTE 3 - LOANS AND ADVANCES TO CREDIT INSTITUTIONS

Loans and advances to credit institutions other than those repayable on demand, presented at their nominal value may be analysed according to their remaining maturity as follows:

	2022	2021
	USD	USD
Not more than three months	2.947.074.206	2.722.598.923
More than three months but less than one year	1.337.522.125	1.007.556.347
	4.284.596.331	3.730.155.270

NOTE 4 - SHARES AND OTHER VARIABLE YIELD SECURITIES

Transferable securities shown under the item “Shares and other variable yield securities” consist entirely of unlisted securities for USD 2.646 (2021: USD 2.819).

NOTE 5 - MOVEMENTS IN FIXED ASSETS

The following movements have occurred in the Bank's fixed assets in the course of the financial year:

FIXED ASSETS:

	Gross value at the beginning of the financial year	Additions	Disposals
	USD	USD	USD
1. Tangible assets	3.500.201	78.308	0
a) Hardware	980.932	39.617	0
b) Other fixtures and fittings, flat furniture, equipment and vehicles	2.519.269	38.691	0
2. Intangible assets	23.250.252	343.565	-49.071
a) Software	21.304.813	343.565	-49.071
b) Goodwill acquired for valuable Consideration	1.945.439	0	0
Total Fixed Assets	26.750.453	421.873	-49.071

Goodwill acquired for valuable consideration represents the value of the takeover of part of the client base of another institution.

NOTE 6 - OTHER ASSETS

	2022 USD	2021 USD
Other assets	534	227
	534	227

Exchange difference	Gross value at the end of the financial year	Cumulative value adjustments	Net value at the end of the financial year

Commission on investment funds	11.432.600	6.064.153
Other accrued income	1.576.343	758.601
Other Commissions	195.524	404.820
Other prepayments	0	521.373
Prepaid general expenses	834.146	710.430
Prepaid income taxes	0	4.187.017
VAT recoverable	469.681	929.460
	56.886.270	37.679.055

NOTE 8 - FOREIGN CURRENCY ASSETS

At December 31, 2022, the aggregate amount of the Bank's assets denominated in foreign currencies, translated into USD, is USD 5.749.717.292 (2021: USD 8.056.485.201).

NOTE 9 - AMOUNTS OWED TO CUSTOMERS

As at December 31, 2022, there is no debts other than those repayable on demand owed to customers. (as at December 31, 2021 debts other than repayable on demand amounted to USD 0).

NOTE 10 - OTHER LIABILITIES

The Bank's other liabilities may be analysed as follows:

	2022 USD	2021 USD
Preferential creditors	528.787	622.608
Sundry creditors	1.982.969	267.157
	2.511.756	889.765

NOTE 11 - ACCRUALS AND DEFERRED INCOME

The Bank's accruals and deferred income may be analysed as follows:

	2022 USD	2021 USD
Accrued commission	9.571.741	14.627.561
Accrued general expenses	10.319.486	13.086.289
Accrued interest expenses	13.423.755	31.247
Deferred income related to commission	0	0
Other deferred income	29.171	2.335.652
Neutralization of foreign exchange results on position covered by foreign exchange swap (note 2.2.)	87.606.762	20.170.200
Other accrued expenses	74.489	581.019

Other suspense receipts (*)	6.769.943	521.374
	127.795.347	51.353.342

(*) Other suspense receipts: Transitory account for suspense receipts payable after the December 31, 2022 to the related beneficiary.

NOTE 12 - TAXATION - EXCHANGE DIFFERENCE: DEFERRED TAXATION

The Bank prepares its annual accounts in USD, currency in which its statutory capital is denominated.

In September 2018 the Tax Authorities authorized the Bank to use the USD tax functional currency in accordance with the Circular L.G.-A no 60 dated June 21, 2016.

Consequently, the fiscal and commercial balance sheets are established in the same currency the USD.

As at December 31, 2022, there is no deferred tax.

NOTE 13 - OTHER PROVISIONS

The Bank's other provisions are made of provision for staff remuneration.

	2022 USD	2021 USD
Provision for staff remuneration	2.030.747	2.239.147
	2.030.747	2.239.147

NOTE 14 - SUBSCRIBED CAPITAL

As of December 31, 2022, the Bank's subscribed and fully paid up capital amounts to USD 187.117.966 for 5.002.575 shares of Class A and 49.080 shares of Class B.

NOTE 15 - MOVEMENTS IN RESERVES AND RESULT BROUGHT FORWARD

	Legal reserve	Other reserves	Result brought forward
	USD	USD	USD
Balance at January 1, 2022	11.858.026	275.193.436	69.819
Profit for the year ended December 31, 2021	0	0	15.697.750
Appropriation of profit			
- Dividends paid to shareholders	0	0	(13.331)
- Transfer to reserves for Net Worth Tax 2022	0	12.265.675	(12.265.675)
- Transfer from Reserve for Net Worth Tax 2016	0	(4.276.351)	4.276.351
- Allocation to Free reserve	0	6.700.000	(6.700.000)
- Allocation to Legal reserve	739.395	0	(739.395)
Balance at December 31, 2022	12.597.421	289.882.760	325.518

Under Luxembourg law, the Bank must appropriate to a legal reserve an amount equivalent to at least 5% of the annual net profit until such reserve is equal to 10% of the share capital. This appropriation is made in the following year. Distribution of the legal reserve is restricted.

Based on the Luxembourg tax law, the Bank has elected to get a tax credit for all or part of the net worth tax due for that year. This tax credit is however, limited to the amount of the corporate income tax due for the previous year before the imputation of any tax credits. In order to profit from this credit, the Bank must commit itself to post before the end of the subsequent year an amount equal to five times the net worth tax credit to a special reserve, which has to be maintained for a period of five years.

As of December 31 2022, the special reserve for net worth tax is included in the Bank's other reserve for a total amount of USD 53.731.675 (2021: USD 45.742.351).

As resolved in the Annual General Meeting dated March 25, 2022, the Bank has allocated an amount of USD 12.265.675 to special reserve for Net Worth Tax 2022 and reversed the available special reserve for Net Worth Tax constituted in 2016 which amounted to USD 4.276.351.

The accumulated balance of special reserve for Net Worth Taxes states as follows as at 31 December 2022.

Years	2022 Reserve for Net Worth Tax USD
2018	8.700.000
2019	9.981.000
2020	10.911.000
2021	11.874.000
2022	12.265.675
Balance at December 31, 2021	53.731.675

NOTE 16 - RELATED PARTY BALANCES

As at December 31, 2022, the following balances with related parties are outstanding:

ASSETS

	2022 USD	2021 USD
Loans and advances to credit institutions	3.349.527.021	2.000.338.586
Prepayments and accrued income	15.563.726	16.028.664
	3.365.090.747	2.016.367.250

LIABILITIES

	2022 USD	2021 USD
Amounts owed to credit institutions	2.491.655.095	2.952.250.135
Amounts owed to customers	475.836.557	840.148.829
Accruals and deferred income	6.590.039	9.626.650
	2.974.081.691	3.802.025.614

The above transactions with related parties were made at conditions comparable with non-related counterparties.

At the request of the Bank, the CSSF has granted a total exemption for the exposures towards the group (Mitsubishi UFJ Financial Group) in the calculation of large exposure limits, in accordance with the Regulation (EU) No 575/2013 of June 26, 2013 (Part IV).

As at December 31, 2022, the amount towards the group falling under this exemption amounts to USD 3.489.714.401 and can be analysed as follows:

	2022 USD	2021 USD
Loans and advances to credit institutions	3.336.184.416	1.808.585.590
Prepayments and accrued income	7.937.073	1.470.954
Foreign exchange transactions (Market Risk method)	145.592.912	134.630.654
	3.489.714.401	1.944.687.198

NOTE 17 - FOREIGN CURRENCY LIABILITIES

At December 31, 2022, the aggregate amount of liabilities denominated in foreign currencies translated into USD is USD 5.614.636.504 (2021: 8.054.585.535).

NOTE 18 - CONTINGENT LIABILITIES

The Bank's contingent liabilities may be analysed as follows:

	2022 USD	2021 USD
Counter-guarantees issued	75.775	545.003

As at the year-end, there were no related party balances.

NOTE 19 - COMMITMENTS

The Bank has entered into certain commitments which are not disclosed neither in the Balance Sheet nor in the Off Balance Sheet Items, but which are significant for the purposes of assessing the financial situation of the Bank. Details of such commitments are as follows:

	2022 USD	2021 USD
Commitments in respect of fixed rental payments contracted on buildings	1.698.764	2.796.181

As at the year-end, there are no related party balances.

NOTE 20 - OPERATIONS LINKED TO CURRENCY EXCHANGE RATES, INTEREST RATES AND OTHER MARKET RATES

The following types of forward transactions are outstanding as at December 31, 2022 and 2021:

Operations linked to currency exchange rates

- Forward exchange transactions (swaps, outright).

Operations linked to the foreign currency exchange rates are made to a large extent for the purposes of covering the existing positions.

NOTE 21 - INVESTMENT MANAGEMENT SERVICES AND UNDERWRITING FUNCTIONS

Management and agency services provided by the Bank include:

- Custody and administration of transferable securities;
- Fiduciary representations;
- Agency functions;
- Portfolio management and advice.

NOTE 22 - COMMISSIONS RECEIVABLE

	2022 USD	2021 USD
Fees on Investment Funds	27.477.944	26.016.529
Fees on Global custody from Institutional customers	86.642.608	117.947.111
Fees on Fiduciary transactions	18.149.234	7.630.429
Fees on Services to Management Company	1.059.206	1.134.939
Other fees and commissions	1.497.573	1.416.253
	134.826.564	154.145.260

Commissions receivable consist of the following:

Fees on Investment Funds consist of fees and commissions charged to Investment Funds for custody services, central administration, depositary and other services. The fees are calculated on the basis of the value of net assets of the funds under administration.

Fees on Global custody from Institutional customers consist of fees and commissions charged to institutional customers for global custody services including securities trade management, settlement, corporate actions, income collection and proxy voting. The fees are calculated on the basis of the assets held under custody and the number of transactions.

Fees on Fiduciary transactions consist of fees and commissions earned on fiduciary assets including custody transactions, cash management and fiduciary notes issuance. The fees are calculated on the basis of the assets held under management and the number of transactions.

Fees on Services to Management Company include fees covering functional expenditures and fees for support services in accordance with the Service Level Agreement.

Other fees and commissions include various fees such as listing agent fees, guarantee fees, banking services fees and fund order desk services fees.

By application of Article 69(2) of the law of June 17, 1992, on the annual accounts of credit institutions sources of income have not been analysed by geographical region.

NOTE 23 - OTHER OPERATING INCOME

	2022 USD	2021 USD
Adjustment of Income taxes regarding previous years	365	0
Adjustment for commission previous years	4,308,298	1,115,225
Income from the adjustment of general expenses regarding previous years	1,335,997	534,448
Sub-Custodian refund (*)	2,404,067	3,820,715
Adjustment of VAT regarding previous years	513,673	0
Other operating income	3,556	3,188
	8,565,956	5,473,576

(*) Sub-Custodian refund: Migration costs refund from Citibank relating to change of sub-custodian from Brown Bother Harriman to Citibank. Refer to Note 11.

NOTE 24 - OTHER OPERATING CHARGES

	2022 USD	2021 USD
Charges from the adjustment of general expenses regarding previous years	701,672	178,276
Commission on previous years	802,718	877,581
Interest on previous years	7,812	42,595
Others operating losses	1,218,294	316,251
	2,730,496	1,414,703

	2022 USD	2021 USD
VAT	1,905,899	1,766,322
Other taxes	75,855	75,855
	1,981,754	1,893,708

NOTE 29 - PARENT UNDERTAKING

As of December 31, 2020, the Bank is a jointly capitalized subsidiary of Mitsubishi UFJ Trust and Banking Corporation by 100%, which are under the holding company Mitsubishi UFJ Financial Group (MUFG), which is incorporated under the laws of Japan and whose registered office is in Tokyo.

The annual accounts of the Bank are included in the consolidated accounts of Mitsubishi UFJ Trust and Banking Corporation, with Registered Financial Institution number 33 at Kanto Local Finance Bureau Japan and registered address 4-5, Marunouchi 1-Chome, Chiyoda-Ku, Tokyo 100-8212, Japan.

The consolidated accounts of the holding company Mitsubishi UFJ Financial Group (MUFG) may be obtained from the head office at 7-1, Marunouchi 2-Chome, Chiyoda-Ku, Tokyo 100, Japan.

NOTE 30 - DEPOSIT GUARANTEE SCHEME

The law related to the resolution, reorganisation and winding-up measures of credit institutions and certain investment firms and on deposit guarantee and investor compensation schemes (the "Law"), transposing into Luxembourgish law the directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms and the directive 2014/49/EU related to deposit guarantee and investor compensation schemes, was passed on December 18, 2015.

The deposit guarantee scheme ("*Fonds de garantie des dépôts Luxembourg*") (FGDL) and the investor compensation system ("*Système d'indemnisation des investisseurs Luxembourg*") (SIIL) cover eligible deposits of each depositor up to an amount of EUR 100.000 and investments up to an amount of EUR 20.000. The Law also provides that deposits resulting from specific transactions or fulfilling a specific social or other purpose are covered for an amount above EUR 100.000 for a period of 12 months.

Credit institutions contribute on an annual basis to the Luxembourg banking resolution fund ("*Fonds de resolution Luxembourg*") (FRL), respectively to the FGDL.

The funded amount of the FRL shall reach by the end of 2024 at least 1% of covered deposits, as defined in article 107(1) of the Law, of all authorized credit institutions in all participating Member States. This amount will be collected during the years 2015 to 2024.

The target level of funding of the FGDL is set at 0,8% of covered deposits, as defined in article 179(1) of the Law, of the relevant credit institutions and is to be reached by the end of 2018 through annual contributions. This amount will be collected during the years 2016 to 2018. When the level of 0,8% is reached, the Luxembourgish credit institutions are to continue to contribute for 8 additional years in order to constitute an additional safety buffer

of 0.8% of covered deposits as defined in article 180(1) of the Law.

For the year end December 31, 2022, the Bank's annual contribution for FRL amounted to EUR 4.115.522

(USD 4.241.878). (2021: EUR 3.245.118 / USD 3.941.196).

NOTE 31 - AUDIT FEES

Within the framework of the EU audit legislation and the mandatory audit firm rotation, the Bank has appointed BDO Audit S.A. starting from the fiscal year 2020.

The fees of the Auditor of the Bank are as follows (excluding VAT):

	2022 USD	2021 USD
Audit fees	241.485	254.582
Audit related fees	67.237	67.930
Tax fees	26.691	33.839
	335.413	356.351

The other audit related fees provided of the Auditor included the following Service:

- ISAE 3402 Report for the period from January 1, 2022 to December 31, 2022

The tax fees in relation to the financial year included the following services:

- Preparation of tax returns;
- Preparation of VAT returns;

NOTE 32 - FINANCIAL INSTRUMENT DISCLOSURES

32.1. Primary non-trading financial instruments

As at December 31, 2022, the analysis of primary non-trading financial instruments (the Bank has no trading portfolio) by class and residual maturity is the following:

At carrying amount in USD	≤ 3 months USD	> 3 months ≤ 1 year USD	> 1 year ≤ 5 years USD	> 5 years USD	Total USD

NOTE 33 - SUBSEQUENT EVENTS

The Bank is not aware of any adjusting or non-adjusting event that would have occurred between December 31, 2022 and the date when the present annual accounts were authorised for issue.

NOTE 34 - CONTINGENCIES

As it may occur in the normal course of business, the Bank is occasionally subject to certain claims. The outcome of litigations is intrinsically uncertain. The likelihood of any material claim being found in favour of a claimant for the litigation currently in process is viewed as remote by the Management; accordingly, no related provisions are made in these annual accounts. Should a reliable evaluation of a past event be possible, the respective provision will be made.

APPENDIX 1 (non audited information)

Reconciliation from the accounting prudential reporting as of December 31, 2022 to the annual accounts as of December 31, 2022

Total equity	552.919.014	5.768.051	558.687.065

APPENDIX B: Explanation of adjustments

The transition from LUX GAAP to IFRS financial statements affects the Bank's financial position at December 31, 2022, for the revaluation of derivatives and for the application of IFRS 9 (Impairment on Financial Assets) and IFRS 16 (Leases).

The adjustments to LUX GAAP may be presented as follows:

1) Financial assets held for trading / Financial liabilities held for trading

a) Under Lux GAAP the Bank has recorded under the liabilities item "Accruals and deferred income", the neutralisation revaluation result on the spot foreign exchange positions as at

December 31, 2022, i.e. USD 87.606.762; and the accrued interest payable on swaps for the last days of December 31, 2022, for an amount of USD 211.

As at December 31, 2022, the Bank has recorded under the assets item "Other accrued income" under "Prepayment and Accrued income", the accrued interest receivable on swaps for the last days of December 31, 2022, for an amount of USD 7,964.986.

For the purpose of FINREP, this neutralisation was reversed to the Profit and Loss account. These swaps are revalued together with transactions made on behalf of clients as in point b) below

The adjusting entry is as follows:

i. Transfer of neutralisation of swap to Transitional accounts

DR - Accruals and deferred income	USD	87.606.762
-----------------------------------	-----	------------

CR - Transitional accounts	USD	87.606.762
----------------------------	-----	------------

ii. Transfer of neutralisation of swap interest payable Transitional accounts

DR - Accruals and deferred income	USD	211
-----------------------------------	-----	-----

CR - Transitional accounts	USD	211
----------------------------	-----	-----

iii. Transfer of neutralisation of swap interest receivable to Transitional accounts

DR - Transitional accounts	USD	7.964.986
----------------------------	-----	-----------

CR - Prepayment and accrued income	USD	7.964.986
------------------------------------	-----	-----------

b) Financial assets/liabilities held for trading are made up of the fair value of swaps and foreign exchange transactions made on behalf of clients for which the Bank has entered always in a reverse operation, in order to close the underlying position of the swaps made for own portfolio of the Bank as mentioned in point a) above. The adjusting entry is as follows:

DR - Financial assets held for trading - Derivatives	USD	60.131.094
DR - Profit and Loss Account	USD	8.215.391
CR - Financial Liabilities held for trading - Derivatives	USD	51.915,703

c) Impact of IFRS 9 Impairment: As of December 31, 2022 the impairment calculation generated a loss allowance on Cash Balance and on Financial Assets at amortised cost.

The adjusting entry is as follows:

CR - Financial assets at amortised cost - loan and advance	USD	483.515
DR - Profit and Loss Account	USD	483.515

d) Impact IFRS 16: With effect from 1 January 2019, the Bank implemented IFRS 16 Leases. Hence, the Bank recognised all of its leases on the balance sheet as right-of-use assets and lease liabilities, in accordance with this accounting standard.

The adjusting entry is as follows:

DR - Property, Plant and Equipment	USD	1.661.342
CR - Lease liabilities (Financial liabilities amortised at cost)	USD	1.698.764
DR - Retained earnings	USD	29.695
DR - Profit and Loss Account	USD	7.727

The impact from the adjustments a), b), c) and d) on the result of the year is a gain of USD 7.724.149 (8.215.391 – 483.515 – 7.727). The Bank recorded the deferred taxes on this amount, which amounted for USD 1.926.403 calculated at the rate of 24.94% (Corporate Tax in 2022). Hence, the net impact (after tax) is a gain of USD 5.797.746 (7.724.149-1.926.403).

APPENDIX 2 (non audited information)

Basel III Disclosure

I. Introduction

This report has been created in compliance with E.U. Directive 2013/36/EU of June 26, 2013, and E.U. Regulation 575/2013 of the same date.

Basel III differentiates between three so-called pillars, which are expected to be mutually reinforcing:

- Pillar 1 is centred on the capital requirements related to the credit, market and operational risks that banks run;
- Under Pillar 2, banks are expected to produce their own assessment of capital adequacy, based on the risks that they face in their activities, including additional risk types such as market risk in the banking book. Pillar 2 also lays out the interaction between the banks' own assessments and the banking supervisors' response;
- Pillar 3 leverages the ability of market discipline to motivate prudent management by enhancing the degree of transparency in banks' public reporting. It sets out the public disclosures that banks must make that lend greater insight into the adequacy of their capitalization. The purpose of Pillar 3 is to complement the minimum capital requirements (Pillar 1) and the supervisory review process (Pillar 2).

Pillar 3 disclosures comprise of:

- Quantitative disclosures relating primarily to actual risk exposures
- Qualitative disclosures relating primarily to risk management practices

Additional qualitative disclosures are applied by enclosing a summary of the Remuneration Policy.

As at December 31, 2022, this disclosure Statement includes the measures required by the full adoption of the Basel III capital reforms. Basel III is a global regulatory standard on bank capital adequacy, stress testing and market liquidity risk, intended to strengthen bank

capital requirements and introduces new regulatory requirements on bank liquidity and bank leverage.

Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A. (hereafter "MIBL" or "the Bank"), a member of Mitsubishi UFJ Financial Group (hereafter "MUFG"), whose Head Office (a financial holding company) is located in Japan, has undertaken to carry out the full disclosure required by the above mentioned regulations. Disclosure will be made on an annual basis.

The report may be obtained after the publication of the Annual Accounts, from the following address: Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A. 287-289, route d'Arlon, L-1150 Luxembourg.

II. Overview

Due to various changes in the global market and current trends in investment funds, it is constantly necessary to adapt the business model. As per client requests, new client services have been implemented which further broaden the scope of oversight and the importance of Risk Management at MIBL.

The Bank updates and implements in its policies, procedures, and processes, methods to identify, categorize, measure, monitor, and mitigate the risks linked to its business lines. The Bank remains risk averse and does not engage in proprietary trading for its own account.

III. Risk Classification

The Bank has identified the following risks present in its businesses and operations:

1. Credit Risk

Credit Risk defined as the risk to incur losses due to a decline in, or a total loss of, the value of assets (including off-balance sheet assets) as a result of a counterparty failing to meet its obligations in accordance with agreed terms. Given the nature of

MIBL business, credit risk is mainly defined by two sub-categories:

- **Counterparty (default) risk** covering: settlement risk, counterparty default on FX market exposure (generating replacement costs) or cash placements at risk due to counterparty default.
- **Country risk** - arising from uncertainties in economic, social, political or other external factors that could have an impact, such as a downgrade of the credit rating.

2. Concentration Risk

The risk of an accumulation of exposure(s) within or across different risk categories of an institution that have the potential to produce either losses large enough to threaten the institution's health and/or ability to maintain its operations, or to produce a material change in an institution's risk profile.

The Bank reports on monthly basis the analysis concerning the concentration risk during its Risk Management Committee. The analysis draws attention to the credit and market exposures that the Bank needs to face, sorting the exposures by counterparty, type, rating, and currency.

3. Market Risk

Market Risk defined as the risk of financial loss due to a decline in the value of assets, or the increase in the value of liabilities, including off-balance sheet items, as a result of fluctuations in market rates (FX rates, interest rates), prices, indices, and volatilities. The Bank has defined two general sub-categories of Market Risk, namely:

- **Interest Rate Risk** – arises as a result of changes in interest rates; both assets and liabilities may impact the profitability of the Bank;
- **Foreign Exchange Rate Risk** – defined as the risk of a loss following changes in the market foreign exchange rate on the Bank's transactions.
- **Credit Value Adjustment** – arises as the risk of decreasing mark to market value of the derivatives. The derivatives done in 2022 by the Bank were mainly FX Forwards and FX Swaps.

The Bank does not hold any proprietary positions.

4. Liquidity Risk

The Bank has identified two types of liquidity risk: market liquidity risk and funding liquidity risk.

- **Market Liquidity Risk** – defined as the risk of sustaining a loss due to the inability to trade

required quantities at a reasonable price, caused, for instance, by market turmoil or a lack of trade volume in the market.

- **Funding Liquidity Risk** – defined as the risk of sustaining a loss due to the inability to obtain the necessary funds required for trading or settlement of obligations, or the need to acquire funds at disadvantageous terms, caused by deterioration in market conditions and/or in the Bank's financial standing.

5. Operational Risk

Operational Risk is defined as the risk of direct or indirect loss resulting from inadequate or failed internal process, people, and systems, or from external events. This includes:

- **Operations Risk** – defined as the risk of incurring losses caused by negligence of correct operational processing or by incidents or misconduct by officers or staff
- **IT Risk** – defined as the risk of sustaining a loss due to IT system destruction, disruption, leakage, errors or similar events.

6. Outsourcing Risk

Outsourcing Risk is defined as the risk of sustaining a loss due to a failure in delegated activities, because they were not carried out properly or not in accordance with contractual arrangements. MIBL outsources material activities to external service providers or within the MUFG Group, therefore Outsourcing Risk is closely monitored by the Risk Management Department. Any aspects involving sub contractors and vendors are discussed in the monthly Risk Management Committee and reported to the Authorized Management and to the Board of Directors in compliance with EBA Guidelines and CSSF circulars on Outsourcing Risks.

7. Climate related & Environmental (CR&E) Risk

CR&E Risks is defined as the risk arising from any kind of impact caused by climate and environmental damages materializing on the Bank's activities and its operations. MIBL recognizes the importance in addressing Environmental, Social and Governance (ESG) risks and is committed to continue developing methodologies to identify and manage these risks. Based on the materiality assessment performed in 2022 the Bank identified the main areas exposed to CR&E Risks which are: outsourcing risk, operational risk, (iii) its financial counterparts and (iv) clients are affected by CR&E risks.

Following the CSSF circular 21/773 MIBL has put in place a Climate Risk Policy and integrated a number of indicators and metrics into its Risk Appetite Statement. MIBL's Climate Risk framework continues evolving vis-a-vis the requirements of circular 21/773 and best market indicators including:

- Physical and transitional risks assessment of MIBL geographical location of its sub-custodian.
- Assess MIBL's client & funds served by the Fund Administration business line in order to assess those under art 6, 8 and 9.

In addition to the above, MIBL will include stress test on climate risks for the first time in 2023. All these improvements will be integrated into said Climate Risk Policy.

8. Compliance & Legal Risk

Compliance and Legal risks are defined as the risks of loss due to a failure to conduct the business in accordance with applicable laws, rules and standards or due to inappropriate or insufficient response to regulatory changes. It covers a variety of component risks such as litigations, sanctions, together with certain aspects of Operational Risks, across the complete range of the Bank's business activities.

9. Reputational Risk

The Bank defines reputation risk as the risk of sustaining a loss due to an impaired reputation, caused, for instance, by negative perceptions and rumours among the Bank's clients and in the general marketplace, or by an inadequate response of the Bank to events arisen within the course of the Bank's business activities. This affects the Bank's ability to establish new relationships or services or to continue existing servicing relationships.

10. Remuneration and Personnel Risk

Personnel risk is defined as the risk of loss due to high turnover of human resources, lack of training, lack of ethics and degradation of morale, as well as other similar behaviors. Remuneration risk is triggered by an inappropriate remuneration policy of the Bank, allowing abusive personnel compensations that are not tied to the financial results of the Bank or to the performance of its employees.

The Bank reviews the Remuneration Policy at least once a year to ensure that the principles, objectives, and methods of the policy are followed as they have been adopted. The Bank's Remuneration Policy adheres to the principles laid down in E.U. Directive 2013/36/EU, the Commission Delegated Regulations no. 604/2014 of March 4, 2014 and no. 527/2014 of

March 12, 2014. The Board of Directors approved the last reviewed Remuneration Policy on January 27, 2021.

IV. The Strategies and Processes of Risk Management

1. One of the basic functions of the Bank's Risk Control is to monitor the risks linked to the Bank's activities and business strategies that are within the control of the Board of Directors, and to the greatest extent possible to predict, mitigate, and manage the risks of the Bank using a pre-defined standard or method whenever possible.
2. The major objective of comprehensive risk control is not only to maintain preventive measures against business risks, but also to include all departments in its analysis and thereby to improve operations through more efficient processes and systems. Other aims are to identify all potential risks the Bank may face, evaluate the scope and the appropriateness of the controls put in place to assess these risks, and determine an action plan to eliminate weaknesses.
3. The Risk Management Department utilizes and has documented detailed methods in the Bank's policies, procedures, written rules, and other documents in its efforts to monitor and manage the risks noted above. The departments where these risks are generated periodically review these written papers, and amend or abolish them in accordance with changes in the Bank's operating environment.

V. The Structure and Organization of the Risk Management Function

1. The Board of Directors and General Management

The Board of Directors is responsible for deciding and approving the basic framework and strategies of the Bank's internal risk control management, implemented throughout the Bank, and to confirm its implementation.

The Board of Directors determines the usefulness and efficiency of the risk controls in place using risk control reports delivered regularly, and judges if the controls comply with the approved limits and measures.

On behalf of the Board of Directors, General Management creates a risk verification and management framework, which remains independent from the Bank's profit-earning units, and allocates the skilled management resources required for carrying out the necessary controls and

functions. For this purpose, General Management establishes policies, standards, and procedures for risk control and management.

In addition, General Management reviews risk control and management plans, organization structures, policies, and procedures so that the Bank's risk management framework evolves consistently with changes in the Bank's businesses, international markets, and "Best Practices" in Risk Management.

Employees are assigned to departments and tasks according to their professional experience and academic background. These assignments are approved by the General Management.

Chief Risk Officer

The Chief Risk Officer (hereafter "CRO") title is assigned to the director carrying out supervisory management of the Risk Management Department (hereafter the "RMD"), which is the department responsible for comprehensive Risk Management, encompassing all risk categories. The CRO is responsible for a complete assessment of MIBL's risks, and for managing these risks adequately. The CRO reports risk control and management methods and plans the Bank's overall risk status to the Board of Directors, General Management, and to the Risk Management Committee.

2. Risk Management Department (RMD)

The RMD is responsible for the selection and execution of an adequate risk management structure. On a daily basis, the department identifies, measures, controls, and monitors all risks within defined and controllable limits. These actions attenuate risks across MIBL's businesses, and thereby provide stability to earnings and risk awareness in the allocation of resources.

3. Risk Management Committee

The primary responsibility of the Risk Management Committee is to review, discuss, and approve the Bank's Risk Management activities. In particular, and in congruence with the Bank's businesses, the Committee discusses Financial Risk (Credit & Market Risk) and Operational Risk and puts forth policies to avoid losses due to these risks. Its members discuss quantitative, as well as qualitative, methods of managing the Bank's risks.

4. Credit and ALM Committee (For Credit Risk, Market Risk, and Liquidity Risk)

The primary responsibility of the Credit and ALM Committee is to establish an appropriate implementation and a functioning management structure for Credit Risk, Market Risk, and Liquidity

Risk. On a monthly basis, its members monitor, and if necessary make decisions regarding, both MIBL clients' assets and the Bank's assets.

VI. The Scope and Nature of Risk Reporting and Measurement Systems

The Bank's process for control and managing its diverse categories of risk comprises several levels and phases. A non-exhaustive description of its methodology follows:

1. Detection of Risks

This step includes the identification of the characteristics of the Bank's individual risks, which include, but are not limited to, their type(s), location(s), source(s), and interdependency (ies).

2. Risk Assessment and Computation

This step includes a comprehensive evaluation of the source of risk, using both quantitative and non-numerical methods, at the transaction, portfolio, and overall structure levels of the individual risk.

3. Risk Control

Risk Control at MIBL involves the process of examining and updating approvals, limits, thresholds, operational processes (for example, standing instructions), escalation processes (and exceptional treatment rules), and risk attenuation methods (haircuts, collateral, netting calculations, ratings, etc.). These are contained and updated in MIBL policies, rules, procedures, and practices. MIBL's Head Office, E.U. regulations, CSSF circulars and regulations, and Luxembourg laws also act as inputs into MIBL's policies.

4. Risk Monitoring and Reporting

The Risk Management Department is in charge of updating the risk processes, monitoring of the risk status and exceptional treatment of individual risks, and reports to General Management and Risk Management Committee. The Committee reports to the Board of Directors on a quarterly basis.

VII. The Policies for Mitigating Risk and the Process for Monitoring Risks

1. Credit Risk Monitoring

The Bank is exposed to counterparty risk, as major component of credit risk, via: overdrafts, money market and foreign exchange market transactions. Potential losses are mitigated via the following methods:

- active follow-up of failed transactions
- active follow-up of overdrafts

- reconciliation of nostro accounts
- development of an active approach towards cash management.

The Pillar 1 capital requirement sufficiently covers the Credit Risk profile of the Bank.

Credit Exposure and Limit Monitoring

The Bank's credit risk monitoring framework allows RMD to verify on-demand the Bank's credit exposures and their impact on authorized credit limits. The RMD carries out verifications of the current credit exposure compared to the approved credit limit. The report indicates a "warning," e.g. a color signal, when the usage of the limit is above 80% of the total limit amount. In this event, the RMD transmits a message to the appropriate department to take remedial action as soon as possible. If the limit is breached, a report is forwarded to the General Management.

The Bank uses a banking system which allows an on-demand monitoring of credit limits. All transactions that would transgress the relevant credit limit put in place cannot be processed without the express authorization of the Risk Management Department. The control on credit limit breaches is made possible through the "Visa Control" system put in place by the Bank. In the event the RMD is requested to approve using Visa Control, an exhaustive analysis of the credit limit breach is carried out. The result of this analysis will be transmitted to General Management before releasing or rejecting the transaction.

Credit Limit by Counterparts

The Bank applies for limits to Mitsubishi UFJ Trust and Banking Corporation (hereafter "MUTB"), following the Managing Director's approval.

Credit Limit Control

The RMD controls the Bank's credit limits. Once the credit limit has been authorized by MUTB, the RMD forwards the approval to the General Management. All approved limits are set up in the Banking system. The RMD reviews these limits once a year, or more frequently as necessary (e.g., in case of breach).

Monitoring Credit Rating for Counterparts

The Bank verifies the credit ratings of all counterparts that have a deal or custody agreement with the Bank.

Credit Risk Stress Testing

The Bank put in place a Credit Risk Stress Test model, using macro-economic and financial market data (e.g. GDP, unemployment rates, interest rates,

FX rates, exchange indices, bankruptcy indices etc.) to infer stress factors applied on the Probability of Defaults (PDs) and create a credit loss distribution.

For the stress test, hypothetical and historical scenarios (including concentration risk) are considered and applied on the banking credit portfolio: mild recession scenario occurring by assumption once in 10 years, the severe recession scenario occurring once in 50 years, the historical "9/11" event, the historical "Lehman bankruptcy".

Country Risk Monitoring

The RMD monitors the counterparts' country risk by checking country ratings using a Bloomberg Station.

Capital requirements

The Bank uses the Standardized Approach for Credit Risk, wherein each exposure is assigned to an exposure class as detailed in CSSF Circular 14/583. The application of risk weights is based on the exposure class to which the exposure is assigned and its credit quality.

The Credit Risk Pillar II is derived primarily from the transactions in cash placement, the overdrafts (occurred mainly by settlement failures) and FX Forwards (the latter are undertaken to mitigate client Foreign Exchange Risk at the request of the customer).

For 2022 Pillar II credit risk capital requirements the scenario with the maximum loss was considered, with an amount of USD 8,735,428.

2. Market Risk Monitoring

Interest Rate Risk in the Banking Book (IRRBB)

Interest Rate Risk may be defined as the risk of loss due to the "gap" (i.e. difference) between assets and liabilities on the Balance Sheet that are exposed to interest rate fluctuations. Interest rates are influenced by a variety of factors, such as politics, international news, and the general economic climate of countries.

The Bank's Interest Rate Risk exposure arises from the normal course of its banking activities, such as accepting deposits, placing funds with credit institutions. The objective of the Bank regarding Interest Rate Risk is to minimize potential losses by monitoring fixed rate interest positions. The Bank has just the risk of an opportunity cost for its gap (i.e. cash) placement (i.e. not being able to re-invest at higher interest rates should they occur during a previously contracted fixed-rate loan).

The Bank has adopted a full cover principle for all interest rate-related contracts. The maximum risk allowed is determined by the Authorized Management.

The Bank performs sensitivity analysis on its economic values taking into account positive and negative shifts on all interest rates (200bp parallel shift of yield curves) as defined by CSSF Circular 08/338 as amended by CSSF Circular 16/642. As specified within the CSSF circular 20/762 and as explained within the guidelines EBA/GL/2018/02, the Bank has also performed six additional stress test scenarios and reported the results. The aim of this analysis is to determine to which extent Interest Rate Risk is likely to result in a decline in the economic value of the institution. The Bank applies interest rate shocks to all its treasury flows taking into account the following parameters: residual maturity, contract rate, market rate, and nominal amount.

International changes, such as the trend toward the liberalization of interest rates in the developing world and large money movements into speculative funds in recent years, have added a higher variability to interest rates than they showed in previous years. This has caused Asset & Liability Management to take on a relative position of importance in the area of Risk Management.

For 2022 Pillar II market risk capital requirements, the IRRBB loss was considered, with an amount of USD 29,735,401.-

Foreign Exchange Rate Risk

The Bank enters into foreign exchange positions as a result of opening FX trades on behalf of its clients. These trades are then hedged in the Interbank Market at the same time without taking on any market risk. Thus, Currency Risk is managed on a timely basis on spot and forward markets. The Bank's policy is to maintain a "full cover" of all transactions. The RMD carries out daily verifications to ensure that all of the Bank's positions are fully hedged.

Daily Control

In general, the total foreign exchange position of the Bank is equal to 0 (or "squared") at the end-of-business each day. A maximum net position of 500,000 USD is allowed at day's end when, due to client transactions, this amount could not be squared. As a matter of practice, the Bank seeks to have the entire FX position squared to the furthest extent possible.

As part of its daily controls, the RMD issues the "Forex Net Short Position Report" (showing the Bank's daily spot transactions)

As a matter of practice, and due to its risk-averse stance in its businesses, the Bank has virtually no other market risks, i.e. no stock prices risk, commodity price risk, or market liquidity risk.

The Bank has also put in place a FX Stress test that quantifies the potential losses that could be incurred by the Bank in case of significant variation of the FX rates and lack of hedging strategy. The FX stress test is defined using different scenarios where a depreciation of the USD is always assumed using different magnitudes with respect to other currencies.

3. Liquidity Risk Monitoring

The Bank's transactions are continuously monitored with respect to their adherence to its internal liquidity rules and to the current regulations in place. The Liquidity Coverage Ratio (LCR) ensures that banks have an adequate stock of unencumbered high-quality liquid assets (HQLA) that can be converted easily and immediately in private markets into cash to meet their liquidity needs for a 30 calendar day liquidity stress scenario. Along 2022 the Liquidity Coverage ratio was well above the minimum requirement.

LIQUIDITY COVERAGE RATIO (LCR) as of 31/12/2022

	USD
A. High Quality Liquid Assets	3.736.741.224
B. Inflows	2.394.133.660
C. Outflows	3.399.708.920
D. Capped Inflows (Max 75% Outflows)	2.549.781.690
E. Inflows for LCR (Minimum (B) or (D))	2.394.133.660
F. Net Cash Flow (C) - (E)	1.005.575.260
G. Liquidity Coverage Ratio (A) / (F)	371,60%
H. Minimum Requirement as of 31.12.2022	100,00%
D. Minimum Regulatory Requirement met	OK

The Bank performs monthly stress-testing of its liquidity risk, simulating extreme market conditions in order to assure that high impact events are easily absorbed.

Asset & Liability Gap Placement Monitoring

MIBL's Funding Liquidity GAP is verified on a daily basis using an automated tool. The Funding Liquidity Report, issued by the tool, is sent to General Management and submitted to a "Four-Eyes" verification on a daily basis. In the daily computation of the GAP, a certain amount of "core cash" is considered to remain on clients' accounts for a longer, more stable period of time.

The amount of core cash at MIBL has increased to USD 3.6 Billion, based on the augmentation in customer cash accounts seen particularly since the beginning of pandemic. GAP placement limits have been set by the General Management and approved by the MUTB Head Office as follows:

Time Period	Limits
- < 3 month	1.8 Billion USD (Minimum)
- > 3 months	1.8 Billion USD (Maximum)

Term placements have a maximum maturity of 1 year, showing and limiting the risk taken by the Bank over the time. The Credit and ALM Committee monitors on a monthly basis that the Bank complies with the Gap Placement Policy.

4. Prudential ratios

As introduced by the requirements of Directive 2013/36/EU / Regulation EU No 575/2013, the Bank calculates and monitors the prudential ratios. Besides the LCR presented above, the Bank ensures that Net Stable Funding Ratio (NSFR) and Leverage Ratio (LR) are being monitored as per December 31, 2022 as follows:

NET STABLE FUNDING RATIO (NSFR) AS OF 31/12/2022

	USD
A. Available Amount of Stable Funding	3.241.482.148
B. Required Amount of Stable Funding	888.471.273
C. Net Stable Funding Ratio (A) / (B)	364,84%
D. Minimum Requirement	100,00%
H. Minimum Regulatory Requirement met	OK

LEVERAGE RATIO (LR) AS OF DECEMBER 2022

	USD
A. Tier 1 Capital	485.813.187
B. Total Leverage Ratio Exposure	8.499.401.258
C. Leverage ratio (A) / (B)	5,72%
D. Minimum Requirement	3,00%
E. Minimum Requirement met	OK

5. Operational Risk Monitoring

The Bank has defined Operational risk as the risk of loss resulting from inadequate or failed processes or systems, human factors or due to external events that are neither market nor credit-related. Operational risk is inherent in MIBL's activities and can manifest itself in various ways, including fraudulent acts, business interruptions, in appropriate behavior of employees, failure to comply with applicable laws and regulations or failure of vendors to perform in accordance with their arrangements. These events could result in financial losses, litigation and regulatory fines, as well as other damage to the bank. The goal is to keep operational risk at appropriate levels, in light of MIBL's financial strength, the characteristics of its businesses, the markets in which it operates, and the competitive and regulatory environment to which it is subject.

The Operational Risks of each business line are identified, measured, and controlled. When remedial or preventive measures are necessary to attenuate risks, the RMD in collaboration with General Management, conceives of and implements an action plan.

As part of group-wide management, the Bank collects, measures, and analyzes loss data, if any, which includes financial losses, derived from operational error events.

"Operational mishandling" refers to errors identified as being caused by negligence in processing and/or disrespect of the Bank's internal rules and procedures, or normal commercial customs and practices.

MIBL has developed a nomenclature while reviewing the Accident Management Procedure. Incidents and Accidents defined as:

- Incidents: Internal errors that could be avoided for example by controls in place, internal procedures, 4-eyes-check principles, and system automation.
- Accidents: External errors that are less predictable and by nature out of control of the Bank. Controls on outsourcing contractors are however being reinforced.

Have been replaced by Accident Internal Responsibility (IR) and Accident External Responsibility (ER):

- Accidents with IR: Internal errors that could be avoided for example by controls in place, internal procedures, 4-eyes-check principles, and system automation.
- Accidents with ER: External errors that are less predictable and by nature out of control of the Bank. Controls on outsourcing contractors are however being reinforced.

The Bank maintains a historical table on accidents that occur during the year.

The below-listed cases are taken into consideration:

- wrongful acts,
- cash accidents,
- operational errors,
- accidents in the course of business activities,
- system inconsistencies (“bugs”) and disturbances (“shut-downs”),
- violations of relevant laws,
- complaints,
- lawsuits, and
- accidents not related to business activities.

MIBL uses these reports to recommend and implement improvements in collaboration with its parent company. The aim of the improvements is to prevent recurrence of analogous or related cases and to create awareness amongst the Staff of Operational Risk issues. All accidents are promptly reported upon discovery, and follow-up measures are carried out as appropriate.

The Bank’s RMD applies two qualitative risk assessment tools: the Operational Risk Self Assessment (ORSA) and the Operational Risk Quality Assessment (ORQA) as preventive measures for reducing Operational Risk.

These measures combined with the Operational Risk reporting and statistics on incidents management allow a better management of the mitigation related to potential operational risks. The mitigation of operational

risks is based as well on three lines of defence: the first line being under the responsibility of the business and operations units, the second with the RMD and the third with the Internal Audit.

As the Bank considers Operational Risk as one of the most important risks it is currently exposed to, stress tests are performed quarterly using the Operational Risk Loss Simulation (ORLS) model. The model is built on the experience gained from the accident reports and is designed to create severity classes in loss intervals and assigning likelihoods for the loss ranges (Insurance Mathematics). Based on this model, the Bank calculated a Pillar II requirement for Operational Risk (including outsourcing and safekeeping risks) of USD 26,158,067.-

VIII. Equity Investments Held

As of December 31, 2022, the Bank no longer holds any participation recorded under “shares in affiliated undertakings”.

IX. Regulatory Capital Requirements

As required by E.U. Directive 2013/36/EU and E.U. Regulation 575/2013, the Bank maintains eligible own funds at least equal to the amount of its overall capital requirements. The minimum required ratio is 10.5%. The Capital Ratio amounted to 29.16% (the end of year profits were not added to the Bank own funds). The Bank applies the Simplified Standardized Approach for the Credit Risk and the Basic Indicator Approach for the Operational Risk.

This ratio is calculated and communicated to the CSSF on a quarterly basis.

All items included in the calculation of the credit risk are extracted from the accounting records of the bank.

The ratio (expressed in percentage terms) is calculated using the following formula:

- the numerator consists of eligible capital (“own funds”) of the Bank,
- the denominator is composed of assets, risk-adjusted by means of percentage weightings that express the degree of credit risk and the capital requirement for Operational Risk.

The details of the capital adequacy ratio calculation as at December 31, 2022 are presented below:

A) Own Funds for solvency

2022 USD	
Paid up Capital instrument	487.631.155
of which Common Stock (Class A Shares)	187.117.966
of which Preferred Stock (Class B Shares)	185.299.997
Other reserves	1.817.969
Profit or loss attributable to owners of the parent	67.288.297
(-) Part of interim or year-end profit not eligible	-67.288.297
Previous year retained earnings	295.823
(-) Intangible assets	-2.262.815
(-) Amount deducted from Tier 1 Capital (Fair value of shares in affiliated undertaking recorded as Equity instruments under IFRS)	-
Total Own Funds	487.631.155
Total prudential Own Funds	487.631.155
Total own funds for the Capital ratio	487.631.155
of which Common Equity Tier 1	485.813.186
of which Tier 1 Own Funds	485.813.186
of which Tier 2 Own Funds *	1.817.969

* Tier 2 capital instruments correspond to Class B shares

B) Capital Requirement

2022 USD	
Capital Requirement for Credit Risk	153.383.177
Capital Requirement for Operational Credit Risk	16.913.972
Total Capital Requirement	170.297.149

> Capital Requirements for Credit Risk

Capital requirements for Credit Risk are decomposed as follows:

Counterparty Breakdown	Exposure (USD) As of December 31, 2022	Capital Requirement (USD)	% of Total Capital Requirement
Cash & Central Bank	6.086.659.248	0	0,00%
Institution	2.091.549.073	136.440.870	88,95%
Corporate	45.398.525	5.273.339	3,44%
Others & Equity	228.075.697	11.668.689	7,61%
Total	8.451.682.543	153.383.176	100,00%

In accordance with E.U. Regulation 575/2013 of June 26, 2013, exposures to credit institutions for which a credit assessment by a nominated ECAI¹ is available shall be assigned that risk weight given by the nominated ECAI according to article 120 of the Regulation.

Exposures to institutions for which a credit assessment by a nominated ECAI is not available shall be risk-weighted in accordance with article 121 of the Regulation.

As an example, pursuant to article 120 of E.U. Regulation 575/2013, risk weights for exposures with a residual maturity of more than three months at institutions rated by a nominated ECAI are allotted risk weights according to the table below.

Credit Quality Step	Risk Weight
1	20%
2	50%
3	50%
4	100%
5	100%
6	150%

CEBS GL07 provides mapping from the Credit Quality Steps above to ECAI ratings. For example, for long-term credit assessments, for Moody's, CEBS GL07 indicates:

1 "ECAI" is an acronym for External Credit Assessment Institution.

Credit Quality Step	Moody's Rating
1	Aaa to Aa3
2	A1 to A3
3	Baa1 to Baa3
4	Ba1 to Ba3
5	B1 to B3
6	Caa1 and below

> Capital Requirements for Operational Risk

The capital requirements for Operational Risk calculated in accordance with the Basic Indicator Approach are presented as follows:

	USD 2021	USD 2020	USD 2019
Net fee & commission income	70.958.293,00	73.520.697,70	67.514.364,84
Net foreign exchange trading result	5.538.000,00	9.749.385,56	9.702.948,63
Dividend	-	-	-
Realized gain on financial assets	-	-	-
Other operating income	4.899.073,00	1.835.481,73	1.439.792,78
Total gross result	96.649.366,00	116.541.133,85	125.088.940,03

Average over 3 years	112.759.813
Capital Requirement (Basic Indicator Approach 15%)	16.913.972

Solvency ratio		2022 (USD)	
Own funds for Capital ratio	=	487.631.155	29,16%
Total Risk Weighted Exposure Amount		1.672.216.807	
Tier 1 Capital Ratio		2022 (USD)	
Tier 1 Own Funds	=	485.813.186	29,05%
Total Risk Weighted Exposure Amount		1.672.216.807	
CET 1 Capital Ratio		2022 (USD)	
Common Equity Tier 1	=	485.813.186	29,05%
Total Risk Weighted Exposure Amount		1.672.216.807	

During the financial year 2022, the Bank held regulatory capital well above the required minimum standards.

MREL ratio

Since June 2020 in accordance with article 46 of the 2015 Law and the Commission Delegated Regulation (EU) 2016/450, the CSSF Resolution Board adopted the decision on the "Minimum Requirement for Own Funds and Eligible Liabilities" (MREL) for Mitsubishi UFJ Investor Services and Banking (Luxembourg) S.A. As of December 31st 2022, the Bank achieved a MREL ratio of 5.99%

X. Other Disclosure Requirements

> Determination of Value Adjustments and Provisions

It is the Bank's policy to assess exposures on an individual basis and to establish specific value adjustments with respect to doubtful and irrecoverable debts. As at December 31, 2022 the Bank was not exposed to doubtful and irrecoverable debts and there was no need to establish specific value adjustments.

> Credit Risk Exposure

Quantitative information on credit risk exposure by class and residual maturity and geographic location is given in the "Financial Instrument Disclosures" of the annual accounts, Notes 29.2 and 29.3.

Stress tests are computed quarterly as of 31st March, 30th of June, 30th September and 31st of December of each year. The outcomes at 31st of December are calculated and reported to the Luxembourg regulator (CSSF) in the ICAAP/ILAAP² Report, based on the Bank's individual status as a credit institution established in Luxembourg, and not on a consolidated basis. The Bank is not subject to CSSF control on a consolidated basis.

As a result of the December 2022 stress tests, the worst case scenario result was USD 8,735,428.-

> Interest Rate Risk Exposure

The Bank's potential exposure on a Mark to Market basis for Interest Rate Risk is low. Due to the short term maturities of assets and liabilities, a change of interest rates would mainly impact the Bank's short-term future earnings (EaR).

The Bank has implemented a stress test on interest rates in order to comply with the provisions of the CSSF Circular 08/338 as amended by CSSF circular 20/762. The stress test aims at quantifying the variation of the value of an institution's wealth when interest rates change.

Requirements to Calculate and Report the Stress Tests on Interest Rates

The interest rate scenarios applied are an increase and a decrease of 200 basis points on all interest rates to which the Bank is exposed. The transactions utilized in the stress scenarios include, but are not limited to, customer cash deposits and OTC derivative contracts written on the client's request. The Bank applies the interest rate shocks to the stated transactions taking into account the following parameters: residual maturity, contract rate, market rate, and nominal amount.

Stress tests are computed on a semi annual basis as of June 30th and December 31st of each year. The outcomes are calculated and reported to the Luxembourg regulator, the CSSF, based on the Bank's individual status as a credit institution established in Luxembourg, and not on a consolidated basis. The Bank is not subject to CSSF control on a consolidated basis.

The interest rate risk stress test consists on the parallel shift (increase or decrease) of interest rate by 200 bps and also on the six additional scenario defined by CSSF circular 20/762. The six additional scenarios have been defined within the guidelines as:

- Scenario 1: parallel shock up
- Scenario 2: parallel shock down
- Scenario 3: steeper shock (short rates down and long rates up)
- Scenario 4: flattener shock (short rates up and long rates down)
- Scenario 5: short rates shock up
- Scenario 6: short rates shock down

As a result of the December 2022 stress tests, the worst case (short rates shock results on a potential loss of USD 29,735,401.

2 ICAAP/ILAAP – Internal Capital Adequacy Assessment Process / Internal Liquidity Adequacy Assessment Process

> **Internal Capital and Liquidity Adequacy Assessment**

The Bank has created the risk surveillance and reporting framework described in sections V and VI of this disclosure. This framework has been created to permit the Bank to accurately evaluate its internal capital in terms of its current and future businesses.

The Board of Directors, General management, the CRO, and the Risk Management Committee receive regular reports and updates on the Bank's risk profile, its numerical values, and capital needs in order to ensure:

- sufficient capital is held against the Bank's various risks, also under economic downturn scenarios
- qualitative judgment as well as quantitative measurements are used based on stress test scenarios and simulation models as part of the foundation of the Bank's capital estimation system, and
- prospective capital requirements based on the Bank's risk profile and strategic plans are adequately monitored and planned for.

> **Derivative Non-Trading Financial Instruments**

As at December 31, 2022, the analysis of OTC derivative non-trading financial instruments (the Bank has no proprietary trading portfolio) by class, residual maturity, and geographic location is given in the "Financial Instrument Disclosures" of the annual accounts, Notes 29.2 to 29.4.

> **Remuneration policy**

The Bank's Remuneration Policy creates the framework for an effective mitigation of remuneration risks, as it will discourage actions and financial transactions that surpass the risk tolerance of the Bank. The Bank's remuneration policy is congruent with the objectives and values of the Bank. The policy is detailing how the Bank avoids variable (alternatively fixed) compensation packages that are

not tied to the financial results of the Bank, nor tied to the performance of its employees. The Bank ensures that the fixed and variable components of total remuneration are appropriately balanced. The fixed component represents a sufficiently high proportion of the total remuneration and allows a flexible policy on the variable remuneration components.

The Bank reviews the Remuneration Policy at least once a year to ensure that the principles, objectives, and methods of the policy are followed as they have been adopted. The Bank's Remuneration Policy adheres to the principles laid down in E.U. Directive 2013/36/EU, the Commission Delegated Regulations no. 604/2014 of March 4, 2014 and no. 527/2014 of March 12, 2014. The Bank's Board of Directors approved the last reviewed Remuneration Policy on January 27, 2021.

In addition to the elements noted above, the remuneration policy is providing at a minimum, details regarding the scope (institutions concerned by the policy), governance, and the ratio between fixed and variable compensation for the different employees.

Furthermore, in accordance with Circular 17/658, the Bank reports the number of persons with high remuneration packages following the compensation ranges defined in the Circular. For 2022 the Bank has reported 48 high rank employees with linked higher remuneration packages, outside the in force remuneration convention.
